Return of the Riches , Riches of the Return.

Dear Burguess Hill Priory Group OT Team,

Goodday,

You are speaking with OBI – The world 'OBI' literally translate to Heart and Soul

I am tripolar man denied under the Mental Health Act of 1985 on the 30 December 2025, the police who denied me my rights to housing under the Equality Act 2010, diagnosed me as a problem. The belief I had was that I was sick, but I am not sick in any way shape/structure or form.

You cannot prove me wrong,I will only accept a proof in formal writing that my neurodivergence Autism , ADHD is a Disability in written FORM.I will check this with my github.com/obinexus/legislation dual/polar lambda laplace intergration framework which is bound to my legislation.

BTS Chill Beat

Therefore , I look forward to this response by those who determine I am disabled.I was born free in Nigeria I am not afraid to head back since I was detained under the mental health act by mr Hajar for three years in an acute children

I am not a British autism I am Nigeria and I am a part of british mensa 2% of the intelligence adult I have issued the police who enforced the Mental Health Act after I told them and they know me since I being in foster care in Redbridge aged 9 when on the the social care team who denied right to all service . I will never hold a british passport

I am not disabled. In Nigeria we don't have any neurodivergent service and there is no support given to those. As I was never blocked in Nigeria I was allowed to travel up and down in all my Biafran territory I was never detained in any way shape or form I was allowed to move as freely as I want I never need permission consent or consues

As an ontological researcher I find solution by exploring the world around me solution to problem I obi have been unable to do that in any way shape of form. I see to return back the Nigeria the Biafran – Bia mean come , and Fram means takes in igbo .

Home is where the Heart is.

My heart belong to the Biafra

Never due to spite

I am Biafran because I was in the struggle, In Nigeria we don't have any neurodiver disabled I have never encounterd a neurodiver man in real life only in the movies I know this is not proof we don't have disablty but I have venetured far and wide this I have never encounter a troubles some neurodiver man we have no problem in Nigeria with neurodiver becaue yet agin everyone is one the plane of equity we are together

Kindly understand this principle :

1 Human Rights is Business - it is a business as given voice as the world has changed the term
business was how we give and treat each other if my rights are violated yet again I would be in a
stray jacket as due to the nature and nurture the discrimination in the UK

My only objective is to get my passport and my belongings in which my social worker who I
phoned yesterday on the 14/01/2026 has agreed to move my things I am not afraid to move
my things myself I have the yelp moving service I have an account as there are many ways

As my social worker does not believe my things at 15 Evesham Way and my mother are not working
to move my things I am using my rights to extend 1 month extra under Equality Act of 2010
